

2020/2021 Product Updates Roundup 2

Covid-19 attendance reporting

The Headline - Covid-19 attendance reporting

Wondering how to report on your Covid-related absences? As our SI and Sym marks aren't statistical absences, they won't be included in standard absence reports and attendance totals. Instead, check out our [Covid-19 September guidance](#) to see how to use the *Raw Attendance Marks* page, or our new out-of-the-box template.

You can also track Covid-19 attendance across your schools from the Group MIS! Report on the fields from the Covid-19 DfE form or today's Roll Call attendance and notes when creating a new Student report, or [import our templates](#) for totals of each attendance code.

What else is new?

- Parents can now see how much they've already paid, how much is left to pay and whether voluntary contributions are allowed when making payments for a trip.
- When logging an incident it's easier to see which staff will be automatically assigned, and change this if you need to.

Coming soon...

Integrations

We'll be adding Microsoft to our range of Single Sign-on options to be used with two-factor authentication.

My Staff Development

We'll be adding new permissions to allow staff to view their own objectives and appraisals.

Parent Portal

Our basket functionality will allow parents to pay for multiple clubs, trips or meal top-ups all in one go.

Early Years Assessment

We'll be adding new templates for early adopters of the new Early Learning Goals and Development Matters assessments.

We publish a roundup of our releases every other Friday [here](#). You can also see what else we're working on using our [Roadmap](#).
