

2020/2021 Product Updates Roundup 24

Colour your Custom Reports and easily analyse your assessments

- When viewing student's FSM eligibility on their profile, we've moved the Eligibility history up in the slide over so it can more easily be seen. We've also renamed the attachments section here, to make it clear they belong to the current eligibility only.
- In **School > Linked Organisations**, URNs are now imported with CTFs, and you can record UKPRNs for educational institutions.

Coming soon...

Wraparound childcare

This summer, we're working on a specialised area where you can set up wraparound childcare clubs and set prices based on time.

Group MIS

Roll out School Attainment and Progress Target Rules, Target Judgement Rules and School Assessment Measures from Group MIS in bulk. Plus, choose User Defined Fields across your schools.

Assessments

We're going to allow you to include more data on your assessment marksheets and we're introducing more features to help standardise how you use marksheets at your school.

We publish a roundup of our releases every other Friday [here](#).

You can also see what else we're working on and make suggestions using [our Roadmap](#).

Why not also join in the conversation in the [Arbor Community](#)?
