# SUSTAINABILITY STRATEGY 2022/23

TASKS	TERM 1	TERM 2	TERM 3	SUMMER '23
Planning: Create a sustainability action group and generate a time-bound sustainability strategy for the year.	█			
Research: Fill in office emissions data gaps to get a rough carbon audit		█		
Research: Work with an external consultant to create new sustainability strategies and initiatives		█	█	
Review: Use certifications such as B-Corp to generate a 'sustainable supplier list'		█	█	
Review: Begin offsetting travel emissions using GreenPerk		█		
Implementation: Hire or place a current employee in charge of implementing the recommendations from the consultation			█	
Follow up: Review initiatives so far and effectiveness through surveys/ discussions				█
Documentation: Create an environmental strategy report detailing actions from the year, and an annual reporting process				█
